Dear Hiring Manager,

I am writing to express my interest in a position at Atomus Cyber. With a solid foundation in computer science and engineering, I am eager to contribute to your innovative projects and make a significant impact.

Having accumulated substantial real-world experience, I am confident in my ability to deliver tangible results. Currently, as a Software Engineer Intern at HrHouz, I have been instrumental in optimizing systems and improving data processing, achieving higher resume search precision. My previous work at Sayurbox, where I enhanced warehouse operations, highlights my problem-solving skills and commitment to efficiency.

My education at the University of California, Berkeley, has equipped me with strong computer science fundamentals, including database systems, algorithms, and computer security. In addition, my role as the Head Teaching Assistant for CS61A, where I teach programming concepts to over 1,000 students, underscores my capability to communicate complex ideas effectively and foster learning.

Having had startup experience as a Lead Software Engineer Contract at Skygeni, I have further honed my skills in integrating innovative solutions such as LLM chatbots, showing my ability to adapt and thrive in dynamic environments. Leading teams and projects have also instilled in me a strong sense of initiative and collaboration.

I am enthusiastic about the opportunity to bring my skills and experience to Atomus Cyber, contributing to your mission of advancing cyber solutions. I am looking forward to discussing how I can be an asset to your esteemed team.

Thank you for considering my application.

Sincerely,

Ronald Arifin
